PROFILE

Engineer-turned-MBA with 4 years in DevOps and threat research, having operated as single point of contact for enterprise clients, gathering requirements, defining delivery roadmaps, and coordinating cross-functional teams. Deep domain expertise in cloud security, threat intelligence, and DDoS mitigation, with hands-on experience translating security risks into product-level controls.

EXPERIENCE

Senior DevOps Engineer

Jul 2022 – Jan 2026

Incedo Inc.

Pune, IN

- Promoted from DevOps Engineer in 2.5 years · ICE Award (Innovation & Customer Excellence), Feb,24 & Apr,25.
- **Client Requirements & Roadmap:** Managed end-to-end delivery roadmaps as the primary client liaison for enterprise accounts — translating business objectives into prioritised backlogs and aligning 5+ cross-functional teams on scope, timelines, and success metrics.
- **Release Ownership:** Owned end-to-end release planning for a SaaS platform: prioritised features, coordinated QA and engineering, and executed 20+ production releases with 100% on-time delivery resulting in a reduction in production defects by 32% across 5 development teams.
- **Platform Product Delivery:** Led scoping and delivery of an internal developer platform (multi-cloud CLI) that cut infrastructure setup time by 80% and deployment time by 65%; drove adoption across 30+ developers by aligning stakeholders on requirements and success metrics.
- **Security & Compliance:** Defined cloud security protocols and managed access control for 200+ users, ensuring regulatory compliance in-turn translating security requirements into product-level controls across OCI and AWS environments.
- **Cross-functional Leadership:** Standardised deployment environments for 30+ developers across 8 production clusters; bridged engineering, QA, and operations on shared standards, improving delivery efficiency by 40%.
- **Game of Regions — Hackathon Winner** Led team Valar Deceptis to build a Region Predictor tool using RAG and LLMs for real-time threat intelligence and dynamic honeypot deployment. Presented at Incedo QBR (Jan 2026); adopted by the client as a live product, winning the company-wide hackathon.

SKILLS

Product:Requirements Definition · Roadmap Planning · Stakeholder Management · Agile/Scrum · Release Management · User Story Mapping · Cross-functional Delivery

Domain: Cloud Security · Threat Intelligence · DDoS Mitigation · Honeypot Systems · DevSecOps ·

Technical: Kubernetes · Python · Docker · Terraform · SQL · AWS · OCI · System Design · CI/CD

Tools: Jira · Git · MS Excel · PowerPoint · Grafana

PROJECTS

Safe Pe | *Python, Django, Git, Heroku, Encryptions*

Sep 2021 – Oct 2021

- Identified a product gap between transaction speed and security in digital payments; designed and built a gateway combining AES (symmetric speed) with ECC (asymmetric security) making it 86% more efficient than RSA-based alternatives, with a 30% improvement in encryption efficiency.

AI Learn | *Python, Flask, React, PostgreSQL, Docker*

May 2021 – Jun 2021

- Built an ML-powered web app using an SVM classifier to generate personalised learning paths — reduced course selection time by 50% and improved post-course satisfaction ratings by 30%.

EDUCATION

S.P. Jain Institute of Management & Research, SPJIMR

Mumbai, IN

PGPM, Case Competitions: InsightX, Consultathon 5.0, Product Case competition 3.0

Dec 2025 – Jan 2026

Narsee Monjee Institute of Management Studies, NMIMS

Mumbai, IN

B.Tech in Computer Science, Gold Medal & in Dean's List for Academic Performance

Jun 2018 – May 2022
